	BREAK	Description: Description: The masterclass is held over 2 half days and is attended by active paediatric infectious diseases (PID) research groups. The masterclass focuses on providing better opportunities for young researchers to present their studies, their scientific sessions and discuss their research with other junior colleagues as well as with research group leaders. Special emphasis is laid on individual feedback. Finally, every year one session will be awarded the "ESPID Research Masterclass Presentation Award" based on scores from all attendees and the ESVID faculty. The closed masterclass is attended by invited research groups and is held every year in the days leading up to the ESVID Annual Meeting. Attendance is by invite only.
